

On the 15th of July I went to Norwich and I took a selfie in front of the railway station. Now do you remember where Norwich is? (Map)

What do you think I was wearing? Remember! IT was the middle of summer.

In the photo I included 2 other women. Who do you think they were?

They were Hungarians named Zsuzsa and Fabiana. Zsuzsa was about 55 and Fabiana 27. How do you think they were related?

They were mother and daughter. I met Zsuzsa at Budapest airport. She helped me through the check-in misery. Do you know what the procedure is?

First you find the line for your flight...

How do you think I met Fábiana?

She met her mum at Stansted and they took me in their car to Norwich. I asked them to drop me off at the railway station because my host booked a taxi for me. Where do you think the taxi driver was from? (Of course, he was from Hungary!)
